BIG WHITE ELEPHANT

May the Philippines Finally Prove to Be.

PECULIAR QUESTIONS ARISE.

Uncle Sam Must Restrain Rebels In All the Islands.

THIS WILL BE A HERCULEAN TASK

It Is Claimed That This Must Be Done Because All Spain's Means of Resisting Their Attacks Have Been Destroyed by the Yankees.

Washington, Aug. 4.-An interesting question and one of vital importance to the administration is the attitude to be assumed by the United States toward the Philippine insurgents in the event that we reach an agreement for the suspension of hostilities with Spain.

It is stipulated in our peace terms that the United States military forces chall occupy and establish a military form of government over the city of Manilla and the bay with surrounding

This involves an immediate surrender of the Spanish forces, not to Aguinaldo, but to General Merritt, and there is some apprehension that the insurgents will resent this very bitterly, and it will be necessary to expel them forcibly from the territory desired.

Beyond this, it, is said in some quarters that pending the decision of the peace commissioners as to the future of the Philippines the United States will be morally bound to maintain the statu quo in the islands at

In other words, having deprived Spain of the means of resisting the enslaughts of the insurgents it has been urged that, the United States would, be bound to prevent the latter

from continuing their warfare... Washington on many important points as to the conditions of the Philippines.

For instance, it is not known even approximately how extensive the revelutionary movement has been throughout the vast group of 1,200 islands and pitched their tents in the open fields, among the large population, estimated to aggregate between 8,000,000 and 15,000,000.

If the revolutionary movement is general and extends to very many of the islands the task presented to the United States military and navai authorities will be one of great magnitude in the event that it is decided to be incumbent upon us not to restore

No Conclusion Reached.

Washington, Aug. 4.-After a conference on the peace question lasting just an hour between the president and M. Cambon, the French ambassador, the latter acting as the representative of Spain, Secretary Day emerged from the White House and announced that the conference was inconclusive; wherefore the parties to it had agreed to say nothing publicly as to what had occurred.

Sooking Bor Release.

Washington, Aug. 1. - Some weeks age a United States warship captured the French merchant steamer Olinde Rodriguez when she was nine miles off San Juan. It was claimed she was running the Mockade, and she was taken to Charleston, S. C., where she is still detained with a number of passengers, freight, and with the official mail of the French minister at Portau-Prince. Both the French embassy and the French Transatlantic Steamship company asked for the release of the steamer on the ground that sha was not running the blockade. The department of justice has been considering the subject, and the prespects are for a satisfactory, adjustment and a release of the steamer, if no ciaims for detention are made. M. Cambon called at the state department on the

Troops Ordered Meme. Washington, Aug. 4.—All troops of cavalry with Shafter's army and eight companies of Rossevelt's rough riders have been ordered to proceed to Mentauk Peint, L. I., for encampment. General Shafter had been directed to use all the transport facilities he can semmand and to send troops north as rapidig as possible. It is heped he will regain his health in a short time and be able to resume command of the Second divisien. First army corps. It is said that General McKee will be placed in temperary charge.

It May Require Months. Washington, Aug. 4.-On the assumption that peace is near at hand some attention is being; given to the steps by which this may be brought about formally and the measures necessary to be adopted immediately afterwards. It is said to be not at aii improbable that the preliminaries leading up to the signature of the treaty, of peace may, consume fully three months, so that it may be well along toward the legal date of the assembly of congress before the president will be prepared to submit a peace treaty to the senate. This allowance of time is rather moderate than ex- to Rico. cessive. We were two years, from 1781 to 1783, in arranging a peace with Great Britain to terminate the revolutionary war. In the case of the Chinese-Japanese war it was severai months before the commissioners were able to perfect the treaty which terminated that war.

Captain Aiger Ordered Home.

Washington, Aug. 4.-Captain Frederick M. Alger, son of the secretary of war, who has been on duty in the campaign against Santiago, has been ordered home because of disability. Through some accident the captain sustained a severe wrench of one of his knees, which will necessitate it being put into a plaster cast for successfui treatment. The secretary's son had suffered several accidents to the same knee during the past two years. In one case the jib boom of a ship striking and painfully wounding it.

Changing Their Camps.

Chickamauga, Ga., Aug. 4 .- The continuous rain of the past 10 days at Camp Thomas has resulted in a general desire to change camps, and the regiments are, as rapidly as they can There is a lack of information in get permission, moving their camps to new locations. The dampness of the wooded territory has made the open fields look quite inviting, and the result is that already a number of regiments, including the cavalry, have and now have the full benefit of a generoue sunshine.

Rivalry Among Regiments.

Washington, Aug. 4. - The rivalry among the regiments remaining here to be included in the next order to move is becoming highly interesting. The officers of each regiment and bringing all possible pressure to bear on the war department, and the officiais will doubtless have much trouble in making their selections. Senators, representatives and others who are supposed to have influence with the war department are being called upon to help the regiments of their states.

To Entist Hawallaus.

San Francisco, Aug. 4. - General Merriam, commanding the department of California, has received the following dispatch from Adjutant General Corbin: "The president directs that if any of the military forces of the Hawalian islands desire to become a part of your volunteer army that you are authorized to organize not to exceed one battalien of infantry, naming the officers and men to be mustered into the service, and have them report to Colonel Barber for duty."

New York, Aug. 4.-None of the 200 sick and wounded soldiers distributed among the different hospitals, on Staten Island is in danger of death at the present time, although some are not out of danger. The men who arrived in the Seneca are the most improved, for they have been on Staten Island for two weeks, and during that time they have had the best medicai treatment. Most of the Conchos sick are suffering from maiarial fever.

Vessels to Be Retained.

Washington, Aug. 4.-It has been finally determined the cruisers Yale and Howard, chartered by the navy from the American Steamship company for auxiliary naval purposes, shall remain in the possession of that depar branch, however, has, no further necessity for these vessels, but they will be leaned to the war department, which will bear, the expense incidental to their charter and use. The vessels will be manned and officered by the navy.

Treated Numerely,

First Ohio Covairy In Luck, Washington, Aug. 4.-The Firts Ohio eavairy now at Tampa will form a part of the next expedition to be sent to the assistance of General Miles in Por-

Peculiar Circumstance.

New York, Aug. 4.-When the transport Breakwater returned to this city from Santiago the army officers of the Department of the East were surprised to find that thousands of pounds of food which had been sent south had never been unloaded from the vessel and was still in the bold. A board of survey was appointed by Colonei Gillespie, commander of the Department of the East, to determine for whom the stores had been intended and why they were not unleaded. This board has reported that the stores were not unloaded because there was immediate need of the vessel to transport the sick and wounded. The board declares that it is unable to fix the responsibility for the failure to unload the supplies.

The child was taken to a Roentgen laboratory, where a photograph of the stomach was taken. There, plainly enough, was to be seen the missing article. The glass head was downward, and the action of the stomach in its work of digestion had kept it up to the top of that organ. The point extended up about four inches in the esophagus. The little child was convered to a hospital, where the obstruction was removed by a simple operation.

ABSOLUTE POSSESSION

Must Be Taken of Porto Rico by United States.

SO SAYS SENATOR BURROWS

He Does Not Believe We Went All of the Philippine Islands, but Should at Least Heve the Best One In the Group.

Washington, Aug. 4.-Senator Burrows of Michigan said that he had no means of judging what would be the prevailing sentiment of the senate as to the treaty of peace, as he had had no conversation with any of his coileagues on the subject recently.

As for myself, I don't care to go very deeply into a discussion of the subject at this time, but in general terms I take this view of it:

We must have absolute possession of Porto Rico, and Spain must relin-quish completely her sovereignty over Cuba. We should retain permanently the island of Porto Rico. Toward Cuba we will act in good faith and with perfect justice, giving to the peo-ple of the island a free and independent government as soon as it can be

We must see to it that a good and stable government is established, and of course the future will depend upon the ability of the people of Cuba to govern themselves, the United States giving them all possible assistance and every opportunity to maintain themselves as a free and independent

As to the Philippines, I do not be-lieve that we want the entire group of islands, with its several millions of semi-barbarous people. In my opinion we should retain one entire island -the best in the whole group-for our purposes, absolutely as our own, as a

naval station and commercial base. Our ownership of the entire island should be absolutely complete, w'h no vestige of Spanish influence anywhere upon it. This would give as all we want for the development and projection of our commerce. The rest of the group of islands might go back to Spain or the people might be left to work out their own destiny.

The queetion of just how far this government should exert itself in the matter of securing goed government for the islands which we do not want for the islands which we do not re-tain is a matter of detail for the fu-ture; the only thing that I care to say on that point is that I do not think this government should retain control for interest in the rest of the islands after having taken possession of the one we want.

THE fruits of the grand victories won by our navy and army must not be fritted away by the Administration, says the Cipcinnati Post. No concessions to Spain; she deserves none.

GOVERNOR BRADLEY and his Assistant Adjutant General do not seem so anxions now as they were a fcw weeks ago for an inquiry into Colonel Castleman's charges. The Governor has notified the Board of Inquiry "to let the matter rest for the present."

THE sentiment of the country is unquestionably opposed to returning the Philippines to Spain. Those islands have suffered as much through her misrule as Cuba, and she should be driven from them forever, whether this country retains them or not.

ALL Europe is amazed at the corruption in London commercial circles brought out by the failure of Hooley, the corporations promoter. His confessione show that many in the ranks of the "nebility" of England have accepted money in return for the use of their names in promoting his schemes. Hoolcy characterizes some of the Earls and Lords as "the greatest blackmailers in London." But the "blackmailers" and rascals are not all confined to England. There are just as many disreputable schemes worked in this country, and in just as disreputable a manner.

Praise From the Press For Mason County's Choice For the Democratic Nomination.

Franklin (Ky.) Favorite: "Mr. James N. Kehoe, of Maysville, Mason County, has announced his candidacy for the Congressional nomination in the Ninth district. Mr. Kehoe is a young man about thirty-five years of age, a lawyer by profession, of more than twelve years practice, and has been Chairman of the County and District Democratic Committees a number of years. Mr. Kehoe has always been an active Democrat, and on every and all occasions has rallied to the assistance of his party. He is a fine speaker and an able lawyer, and his long and efficient service in the interest of his party merits recognition at the hands of the voters of his district. He would be a credit not only to his district, but to the State at large, should he be selected as the custodian of their interests in the House of Representatives."

Paris Editors Fined.

THEATRICAL COMPANIES.

Managers Are Greatly Worried Over the New War Tax-Some Knotty Polnts.

[Lexlugion Herald.]

If the Attorney General of the United States construes the clauses of the new war tax, as far as they relate to the theatrical business, and many of them seem to think he will, at least eight-tenths of the companies now routed for tours of the country will go out of business.

The matter that managers of road shows are worried about is whether they they will have to pay \$10 for each State they play in or \$100, and nobody seems to know just what sum they will be taxed.

Another knotty problem is whether they will be allowed to pay pro rata, or fractional license if they only play one night in a State, or if they will have to pay for the year.

Many managers have decided that in cities of over 25,000 inhabitants, the theater will have to pay the license, and that traveling companies will be exempt, and have, therefore, cancelled all dates in towns under 25,000 population.

The whole matter is in a very unsettled and unsatisfactory condition, and can not be set right until some special and definite interpretation of the law comes from Washington.

So far all that is authoritative about the workings of the law is that no stamps are necessary on either sharing or engagement contracts, and that theaters opening any time after July 1st will not be compelled to pay the full license of \$100, but only from the date of opening. Therefore, a theatre opening October 1st will only have to pay for eight months, or

HOW THE STATE WAS GOUGED.

Contractor Martin Had a Good Thing Buying Chairs at Frankfort.

FRANKFORT, KY., Aug. 2.-The auction sale of damaged chairs, held at the Frankfort penitentiary, afforded striking proof for the charge that the Republican Prison Commissioners, in dealing with Martin, have allowed him to get the best of the State to the tune of from \$50,000 to \$100,-000 annually.

The sale held last week was of such chairs as were damaged and as the Republican Commissioners decided were unsalable, but notwithstanding this fact the prices at auction ranged about one-third higher than Martin pays the State for perfect goods. A striking case in point in that of No. 5431, for which Martin pays the State \$4.05, which style at auction, damaged as they were, brought \$5,25, or nearly 30 per cent. more. This is the style of which Martin makes the greatest number.
